You should live here. In the NW Mo. area we have 3 prisons to keep full in order to keep state money flowing.

This is no joke and no exaggeration folks: the ORS is pimping our children to collect money for the state of Utah! To read more on the background of this federally encouraged rape of the constitutional rights of American fathers and their children read the article by Phyllis Schlafly's, head of the national Eagle Forum, entitled "Federal Incentives Make Children Fatherless". Lawmakers that continue to support this blood money should be ashamed of themselves!
